

Please do not change our do-not-call list rules. It has made life so much nicer. We have 3 phone lines to our home and you can imagine the problems with having telemarketers call. If we have terminated our business with a company WE DO NOT WANT TO BE CALLED - - IT WILL NOT BRING US BACK! It is an intrusion of our privacy. If I want to communicate to a business I will call them or visit their place of service. I am sick and tired of being called away from dinner, a movie, guests, another phone call, relaxation, and as far away as the garden. I never ever give them any business and though I am a very polite person we are now JUST HANGING UP. Wisconsin has the guts to protect us with a do-not-call list and it really works. If the political calls and charity calls could stop too that would be even better! There is the U.S. Postal Service. LEAVE WISCONSIN'S DO-NOT-CALL AS IS.
